

# **NOTICE TO TRADING PARTNERS**

## **Please Read and Follow These Instructions**

Parts 204, 212, and 252 of the Defense Federal Acquisition Regulation Supplement (DFARS) have been amended to require contractor registration in the Department of Defense (DoD) Central Contractor Registration (CCR) database prior to the award of any contract, basic agreement, blanket ordering agreement or blanket purchasing agreement unless the award results from a solicitation issued on or before May 31, 1998. Having a Commodity and Government Entity (CAGE) code alone is no longer sufficient to qualify a contractor to do business with DoD. Each contractor is responsible for and required to register and/or update their Trading Partner Profile (TPP) with the CCR.

All CCR registrants are validated through the CAGE system. If you have a CAGE code, identify it in the CAGE code field on your TPP. If you do not have a CAGE code, and are a U. S. company, one will be assigned to you after you register with the CCR. You can register via the Web at: <http://www.ccr.dlsc.dla.mil/ccr> or request a registration form from the Assistance Center at 1-888-227-2423 or 1-616-961-4725 for further information regarding the registration.

Foreign companies: you must first have your CAGE/NATO code before you can register with the CCR. To obtain your CAGE/NATO code, contact Walt Baker via E-mail at: [wbaker@dlsc.dla.mil](mailto:wbaker@dlsc.dla.mil), or call 1-616-961-4220. Give your company name (and d/b/a name), address, telephone number, point of contact name, and your DUNS number, obtained through the Dun & Bradstreet office in your area. Add a statement that you wish to be notified as soon as your CAGE/NATO code has been assigned for your company. After receipt of your CAGE/NATO code you can register with the CCR via the Web at: <http://www.dlis.dla.mil/ccr>

Contact your regional Procurement Technical Assistance Center (PTAC) to determine your Standard Industrial Classification (SIC) codes or sign onto the web at: <http://www.osha.gov/oshstats/sicser.html>. Call 1-703-767-1650 to locate your regional PTAC.

In addition to your requirement to register with the CCR, Defense Energy Support Center requires that you fill out the Solicitation Mailing List Application and applicable product/location page(s) and forward it to the address cited in Block 3.

**NOTE: THE CCR IS NOT IN LIEU OF THE APPLICATION. THE APPLICATION IS REQUIRED BY DESC FOR YOU TO BE ADDED OR RETAINED ON THE BML.**

## INFORMATION AND INSTRUCTIONS RELATIVE TO COMPLETION OF SOLICITATION MAILING LIST APPLICATION

1. The enclosed Solicitation Mailing List Application and Program pages are forwarded in response to your request to receive Defense Energy Support Center (DESC) solicitations. **Please complete the forms and return an original signature copy to this Center within 30 days of receipt: ATTN: DESC-CPC, ROOM 3815, Defense Energy Support Center, 8725 JOHN J. KINGMAN RD, STE 4950, FT BELVOIR VA 22060-6222, or via Fax at (703) 767-8506. Retain a copy for your records.** If you intend to sign offers and/or contracts, please include yourself on Page 1, Block 9 of the application.
2. Complete only the Product/Location pages concerning DESC programs for which you wish to receive solicitations. Discard all pages covering any programs that are of no interest to you. Your firm will be added to the appropriate mailing list(s) upon receipt and validation of this package.
3. You should carefully **consider the Notes** under each program heading on each page. Each Note is a description of the program and should aid you in deciding which programs your firm is capable of handling.
  - a. **Page 6, Bulk Lubricants and Specialty Products (DESC-BZ):** Many of the products solicited for this program are required to be **qualified products**. Awards for such products can only be made when the products offered have been tested and are qualified for inclusion in a **Qualified Products List** (whether or not actually included in the list). This Center maintains a publication entitled "Reference List of Specifications and Standards for Petroleum and Related Products" that identifies those specifications requiring product qualifications and the qualifying activity. A copy of this publication may be obtained by writing to the ATTN: DESC-Q, Defense Energy Support Center, 8725 JOHN J KINGMAN RD, STE 4950, FT BELVOIR VA 22060-6222.
  - b. **Page 7, Anthracite and Bituminous Coal (DESC-AC):** This Center will determine whether offered coal meets the purchase specification requirements based on Department of Energy and Department of the Army analysis. If there have been no analysis data by those two Departments for the mines on which you intend to base your offer, the offer may be rejected. Therefore, we suggest you write the US Army Petroleum Center, Petroleum Testing Facility - East, SATPC-QE, Building 85-3, New Cumberland, PA 17070-5005, or phone (717) 770-6511 to arrange for sampling and analysis.
  - c. **Page 13, Natural Gas (DESC-AE/AW):** This Center requires all the information requested as it pertains to your Company/Corporation.
  - d. **Page 15, Storage and Environmental Services (DESC-FP): IMPORTANT:** Storage capacity **must** be 50,000 barrels to qualify for this mailing list.
4. The Federal Acquisition Regulation (FAR) states that firms failing to respond to solicitations **shall be removed** from the Bidders' Mailing List (BML) for that program. It is this Center's policy that **firms not responding to three consecutive solicitations** shall be automatically purged from that program's BML. Therefore, for BMLs for programs in which you wish to show a continuing interest, please be sure to return the DD Form 1707 included with the solicitation, even if you are not submitting an offer; if such is the case, annotate the **"NO BID"** block on the reverse of the form and **return just the form** as stated thereon.
5. The addition of your company to the requested BML may result in your receiving an amendment to a Basic solicitation previously issued. You may request a copy of the Basic solicitation by letter to DESC by facsimile (703) 767-8506, to the Point of Contact name cited in Block 9 of the Standard Form 1449, Solicitation/Contract/Orders for Commercial Items.
6. The two SIC Codes defined in a. and b. below represent the majority of companies doing business with DESC. If your company does not fall within the definitions given, please refer to the regulations to determine the applicable requirements for your type of business or contact Kathy Williams, Small Business Office, (703) 767-9400.

2

a. Under Standard Industrial Classification (SIC) Code 2911, to qualify as a small business refinery or manufacturer, an offeror must meet the requirements of FAR 19.102, which provides, in pertinent part, that "the firm may not have more than 1,500 employees, nor may it have more than 75,000 barrels per day capacity. This capacity may be measured in terms of either crude oil or bona fide feed stocks or both, but the sum total of the various petroleum-based inputs in the process may not exceed 75,000 barrels. In addition to the direct owned capacity of the concern in question, counted capacity will include any leased facilities or any facilities made available to the concern under an arrangement such as (but not limited to) an exchange agreement or a throughput, or other form, or processing agreement (whereby another party processes the concern's own crude or feed stocks). Such an arrangement would have the same effect as though such facilities had been leased, and this would have to be included in the concern's own capacity. The total product to be delivered in the performance of the contract must be at least 90 percent refined by the successful bidder from either crude oil or bona fide feed stocks."

b. Under SIC Code 5172, to qualify as a small business wholesaler or dealer, an offeror must meet the requirements of FAR 19.102, which provide, in pertinent part, that the number of employees of the concern and its affiliates must not exceed 500.

7. Other criteria the Contracting Officer will consider prior to award of any contract include whether the offeror--

- a. Has adequate financial resources, or the ability to secure such resources.
- b. Has the necessary experience, and organizational and technical qualifications, and has or can acquire the necessary facilities (including probable subcontractor arrangements) to perform the proposed contract.
- c. Is able to comply with the required delivery or performance schedule (taking into consideration all existing business commitments).
- d. Has a satisfactory record of performance, integrity, judgment, and skills.
- e. Is otherwise qualified and eligible to receive an award under applicable laws and regulations.

## DEFINITIONS

Persons or concerns wishing to be added to this Agency's bidder's mailing list for energy products and related services shall submit this properly completed Solicitation Mailing List Application to the address cited on the front, Block 3. The application shall be submitted and signed by the principal as distinguished from an agent, however constituted. Please be advised of Part 4, Page I, "Information and Instructions Relative to Completion of Solicitation Mailing List Application" statement on failure to respond to solicitations.

### SIZE OF BUSINESS DEFINITIONS

(See Block 10A)

1. "Small Business" – A small business concern for the purpose of Government procurement is a concern, including its affiliates, which is independently owned and operated, is not dominant in the field of operation in which it is competing for Government contracts, and can further qualify under the criteria concerning number of employees, average annual receipts, or the other criteria, as prescribed by the Small Business Administration. (See Code of Federal Regulations, Title 13, Part 121, as amended, which contains detailed industry definitions and related procedures.)
2. "Number of Employees" (Block 10B) - In connection with the determination of small business status, "number of employees" means the average employment of any concern, including the employees of its domestic and foreign affiliates, based on the number of persons employed on a full-time, part-time, temporary or other basis during each of the pay periods of the preceding 12 months. If a concern has not been in existence for 12 months, "number of employees" means the average employment of such concern and its affiliates during the period that such concern has been in existence based on the number of persons employed during each of the pay periods of the period that such concern has been in business.

### AFFILIATES

(See Block 8)

Business concerns are affiliates of each other when either directly or indirectly (1) one concern controls or has the power to control the other, or (2) a third party controls or has the power to control both. In determining whether concerns are independently owned and operated and whether or not affiliation exists, consideration is given to all appropriate factors including common ownership, common management, and contractual relationship.

### TYPE OF BUSINESS DEFINITIONS

(See Block 12)

1. "Manufacturer or Producer" means a person (or concern) owning, operating, or maintaining a store, warehouse, or other establishment that produces on the premises the materials, and/or supplies of the general character listed in this Federal Agency's Supplemental Commodity List, if attached.
2. "Service" establishment means a concern (or person) which owns, operates, or maintains a business which is principally engaged in the furnishing of non-personal services, such as (but not limited to) repairing, cleaning, redecorating, or rental of personal property, including the furnishing of necessary repair parts or other supplies as a part of the services performed.

### TYPE OF OWNERSHIP DEFINITIONS

(See Block 11)

1. "Disadvantaged Business" – means any business concern (1), which is at least 51 percent owned by one or more socially and economically disadvantaged individuals; or, in the case of any publicly owned business, at least 51 percent of the stock of which is owned by one or more socially and economically disadvantaged individuals; and (2) whose management and daily business operations are controlled by one or more of such individuals.
2. "Woman-Owned Business" – means a business that is at least 51 percent owned by a woman or women who are U. S. citizens and who also control and operate the business.

COMMERCE BUSINESS DAILY – The Commerce Business Daily, published by the Department of Commerce, contains information concerning proposed procurements, sales, and contract awards. For further information concerning this publication, contact your local Commerce Field Office.
